Between 08.30 -17.30	£6.04 per hour

Our Kiddylinguistics Enhanced Provision includes

Our Enhanced Provision offers children the opportunity to access the core Europa languages through full immersion, alongside one-to-one and small group sessions with our highly qualified Early Years teachers, who are fluent in French, Spanish, and German.

These fun and engaging sessions gently support children as they develop their English, while also strengthening their bilingual language skills and preparing them for a smooth transition into the Europa Reception class.

Children in our Enhanced Provision also benefit from access to our Forest School and have the exciting opportunity to participate in educational visits. These experiences encourage curiosity, independence, and confidence in a nurturing preschool environment.

Full catering is included in our Enhanced Provision, and our daily hot meals are freshly prepared by the Europa kitchen. Children enjoy tasty and nutritious menus while becoming familiar with the meals they will eat in the reception class, helping to make the transition from Kiddylinguistics to Europa even smoother.

Our multilingual snack times offer another opportunity for our teachers to immerse your children in different languages while they enjoy a healthy snack all included

The Enhanced Provision also includes essential care items such as baby wipes, nappy bags, sun cream, and waterproof trousers. This allows parents to feel reassured that these everyday necessities are taken care of.

Additional Information

Our Enhanced Provision is offered within selected multilingual rooms, where a rich variety of Early Years activities is delivered with language learning woven naturally throughout the day.

If you choose not to select this option for your sessions, your child will spend their time in our English-only rooms, participating in activities aligned with the EYFS curriculum, in addition parents are also required to provide all catering and care product. Please refer to our Healthy Snack Policy and Care Products List for full details.
